

## CEGH Gas Exchange of Wiener Boerse Trader License Training Workshop

### About CEGH:

Central European Gas Hub AG (CEGH), located in Vienna, Austria, is the leading hub for gas trading in Central and Eastern Europe. As the operator of the Virtual Trading Point, CEGH opens international gas traders a gateway for trading in the entry/exit zone of the Austrian market. In 2014, CEGH achieved a total trading volume of 440 TWh of natural gas at the OTC Market and 21.3 TWh at the CEGH Gas Exchange. Thanks to this excellent development CEGH can maintain its position among the gas hubs in CEE.

CEGH functions as a cross regional balancing platform by offering trading activities and services for different markets:

- CEGH OTC (over-the-counter) Market
- CEGH Gas Exchange Spot Market of Wiener Boerse (Day-Ahead and Within-Day Market)
- CEGH Gas Exchange Futures Market of Wiener Boerse (Front Month, Quarter, Season, Year)
- CEGH Czech Gas Exchange in cooperation with PXE (Spot and Futures Market)

The unique combination of OTC and exchange services turns CEGH into a one-stop-shop for gas traders and makes it the leading gas hub in Central Europe. CEGH's key success factors are its reliability, flexibility and outperforming customized technology combined with its knowledge of the liberalized gas markets.

CEGH is a dynamic company that adapts its business activities to the special needs of its customers and the fast moving market. Our goal is to continually extend our product range to make High-Class Gas Trading for our members easier and more attractive.
